

PRODUCT Nº.: 1.613

AQUA-PLUS INSECTICIDE

WIDE SPECTRUM WATER-BASED INSECTICIDE

Characteristics:

AQUA-PLUS INSECTICIDE is a new concept in the field of insecticides, a concept based on obtaining products that, presenting high efficiency in disinsection works, could reduce as much as possible the risks against people, plants and warm-blooded animals.

AQUA-PLUS INSECTICIDE is an insecticide for domestic environmental use, also authorized for use in the food industry. Highly effective against flies, mosquitoes (flying insects), spiders, ants, roaches, bedbugs, etc. Once applied, its action remains for a few weeks. Due to its special formulation (see in this technical data sheet) composed of active ingredients with a long-lasting effect, together with immediate-acting active compounds and the presence as a carrier vehicle of the active ingredients of a water-based, it allows obtaining a final high efficiency product without unnecessary dangers.

The absence of solvents and odors eliminates the inconveniences of other products in its application, providing immediate and long-lasting action against a wide spectrum of flying and crawling insects.

Fields of application:

AQUA-PLUS INSECTICIDE covers very wide fields of application, to name a few, it is especially indicated in the control of insects at home, public transports, health centers, residences, schools, sports and recreational centers, hotels, restaurants, penitentiary centers, etc.

Its possibility of being applied in the food industry, extends its application sectors to all those establishments and industries related to this field of food.

Composition:

d-tetramethrin	0.100%
Permethrin	0.200 "
Bitter taste substance and excipients q.s.p.	100.00 "

D.G.S.P. Registry: 20-30-00283

D.G.S.P. Registry : 20-30-00283 HA

AUTHORIZED FOR USE BY THE GENERAL PUBLIC.

ENVIRONMENTAL AND FOOD INDUSTRY USE BY SPECIALIZED PERSONNEL

How to use:

Use biocides in a safe way. Always read the label and product information before use.

The way of use will depend on the field of application (by the general public, environmental or food hygiene). In environmental use and by the general public, spray the pure product, ensuring a good spray on baseboards and floors. Insist on its application on areas where a presence of insects is appreciated such as walls, corners, cracks, terrace floors, windows, curtains, furniture backgrounds, etc. **AQUA-PLUS INSECTICIDE** does not stain or smell.

In the food industry, apply the product on surfaces, floors, baseboards, corners, etc., in the complete absence of food. For more information, read the product label carefully. Safety term for use by specialized personnel: 24 hours

Presentation:

AQUA-PLUS INSECTICIDE is commercially available in non-returnable plastic containers of 5, 10, 25 liters and in boxes of 20 units of 500 ml, with a **built-in spray gun**.

BENEFITS

- * WATER BASED INSECTICIDE.
- * WIDE SPECTRUM INSECTICIDE
- * IMMEDIATE AND RESIDUAL EFFECTS.
- * APPLICABLE IN THE FOOD INDUSTRY.
