

PRODUCT Nº: 1.317

PROQUIL-GRAS

CONCENTRATED ALKALINE DEGREASER

CHARACTERISTICS

PROQUIL-GRAS is a liquid, lightly blue-greenish coloured product, which has been formulated based on tensoactives with high emulsifying and degreasing power, in an alkaline medium, giving **PROQUIL-GRAS** a great degreasing and emulsifying power for every type of grease, as well as high yield in cleaning grease deposits on surfaces. Biodegradable.

N.R.S. 37.00207/M-03706

APPLICATION FIELD

PROQUIL-GRAS is especially recommended for cleaning every type of greasy surfaces at room temperature. Inside and outside oven cleaning, kitchen-ware, fume removal hoods filters, tiles, etc.

Emulsifies oils used in fryers. If poured pure down the sink, it helps removing organic blockings.

METHOD OF USE

PROQUIL-GRAS can be used pure, as it's supplied or diluted with water, depending on the existing dirt.

Apply directly on the surface to be cleaned using cloth or sponge, or apply by spraying with triggersprayers. Let work for a few minutes and pass a clean and damp cloth to remove the mixture of product and grease.

Finally rinse the surface with a damp cloth and dry the surface if necessary.

PROQUIL-GRAS can be used by immersion, in case of cleaning very greasy utensils. It's enough to keep them immersed in a dilution of **PROQUIL-GRAS** with water for a few minutes, rinsing afterwards with plenty of water.

PROQUIL-GRAS does not attack ferrous metals, enamels or most of the plastic materials. In case of cleaning aluminium utensils, its use is not recommended by immersion. If necessary, use very low dilutions in order to avoid blackening of the treated pieces.

PRECAUTIONS

Do not swallow. Causes severe burns. Keep out of reach of children. Avoid contact with skin or mucosae. While handling, it's recommended to wear resistant gloves. In case of contact with eyes, wash immediately with plenty of water and seek medical advice. In case of contact with the skin, wash immediately with plenty of water.

ADVANTAGES

- Concentrated product.
- High degreasing power.
- The product can be used diluted.
- Can be applied by spraying or immersion.
