

PRODUCT Nº: 1.321

PROQUIL-PINO CONCENTRATED AMMONIUM PINE CLEANER

CHARACTERISTICS

PROQUIL-PINO is a general cleaning product, formulated based on non-ionic tensoactives, glycols, humectants and admixtures. In its composition, it contains pine essences and ammonium compounds, thus combining, together with its high detergent and degreasing power, the effects of the pine extracts. Biodegradable product. N.R.S. 37.00207/M

PROPERTIES

- Concentrated product.
- High cleaning power with low doses.
- Can be applied on most surfaces.
- Can be mixed with any type of water
- Leaves a nice pine scent.
- Does not need rinsing afterwards.
- Cleans and deodorizes in an only operation.
- Simplifies cleaning, reducing work.

METHOD OF USE AND DILUTIONS

PROQUIL-PINO is especially recommended for cleaning floors in passages, rooms, kitchens, toilets, etc. Due to its high concentration, it's recommended to use **PROQUIL-PINO** always diluted in different amounts of water. These amounts will depend on the degree and type of dirt present on the surfaces to be cleaned. In ordinary cleaning of floors, it's recommended to use dilutions around 30-40 grams of product per 10 litres of water. When the surfaces are very dirty, it's recommended to increase slightly the doses.

The method of use for **PROQUIL-PINO** is very simple. It's enough to dilute the most suitable amount of product in water and apply the solution with a mop, brush, etc. On the surface to be cleaned, removing the water afterwards. It's not usually necessary to rinse afterwards.

PRECAUTIONS

Do not swallow. Keep out of reach of children. In case of contact with eyes, wash with plenty of water. Non-compatible with acid or cationic products.

PACKAGING

PROQUIL-PINO is packaged in 30 and 60 litres non-reusable, plastic containers.

ADVANTAGES

- Concentrated product.
- Compatible with any type of water.
- High detergent and degreasing power.
- Cleans and deodorizes in an only operation.
