

PRODUCT Nº: 1.369

PROQUIL-ALCA

CHLORINATED ALKALINE CLEANER

FEATURES:

PROQUIL-ALCA is a broad spectrum cleaner formulated in chlorinated alkali base that provides for effective cleaning on surfaces that have spots of mold and mildew as well as stainless steel surfaces, floors and walls in the food industry.

SCOPE:

PROQUIL-ALCA is especially suitable for cleaning, at room temperature, all surfaces of brick, mortar, concrete, ceramic tiles, marble, granite, stainless steel, etc., with patches of mildew on exterior and interior, as well as traces of grease, oil and dirt in general, in agri-food establishments such as cutting plants, slaughterhouses, warehouses, dairies, etc.

INSTRUCTIONS:

PROQUIL-ALCA is applied directly without dilution when dirt of grease, mold or mildew to remove requires a stronger cleaning procedure due to fixation and depth of such stains. When cleaning needs are maintenance can make dilutions of the product that can range from 2% to concentrate, based on the accumulated dirt. The use of hot water enhances the cleaning power, removing dirt more easily.

The product can be applied both spray applied over the area to be cleaned, or with the use of mops, brushes, etc.

When used on surfaces with mold and mildew, the product is applied, letting it act for a few minutes on the area to be cleaned and then rinse with water pressure if possible or brush to remove the remaining dirt. When removing important grease dirt, proceed similarly.

PROQUIL-ALCA should not be applied onto aluminum or alloys since being a strongly alkaline product causes loss of brightness of these surfaces.

PRECAUTIONS:

Do not ingest. Keep out of reach of children. Avoid contact with eyes, skin and mucous membranes. In handling use of resistant gloves is recommended. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. After contact with skin, wash immediately with plenty of water.

PRESENTATION:

The product comes in plastic containers of 6, 12 and 30 kg net capacity.

BENEFITS

- * Effective stain remover of mold and mildew.
- * High cleaning power.
- * Dilutions of the product may be used.
