

PRODUCT Nº: 8.013

TECMAGRAS-PLAC

SPECIAL DEGREASING CLEANER FOR KITCHEN PLATES

CHARACTERISTICS

TECMAGRAS-PLAC is a powerful red-coloured liquid degreaser with a characteristic scent, which has been formulated based on components with high humidifying, emulsifying and detergent power. Due to its special alkaline based composition and its high solvent power, removes greases and other dirt present in kitchen plates and roasters.

Health Registry Nº: 37.00207/M-03695

USES

TECMAGRAS-PLAC is especially recommended for cleaning every type of oil and grease remains, as well as any other remains on kitchen and restaurant plates.

METHOD OF USE

TECMAGRAS-PLAC must be used pure, as it's supplied. Pour a small amount of **TECMAGRAS-PLAC** on the plate to be cleaned and spread it all over the whole surface. Let work for a few minutes and remove the grease remains using steel wool or a broad knife, scratching the whole surface. Rinse with clean water and pass a cloth in order to dry the surface.

In order to get a faster cleaning and more efficiency, it's recommended to clean the plates when they're lightly hot (30-40 °C), so that the temperature keeps the grease soft and the works turn to be easier.

It's not recommended its use on surfaces or utensils made of aluminium.

PRECAUTIONS

Corrosive. Harmful if swallowed. Keep out of the reach of children. Avoid contact with eyes or skin. Avoid breathing possible vapours, using the suitable ventilation. It's recommended to wear gloves while using or handling.

PACKAGING

TECMAGRAS-PLAC is packaged in 10, 25 and 60 litres non-reusable, plastic containers.
